Premium Australian Spring Water

"When Antoinette Versace put her name to this premium product the world took notice of the global competitor and breathed a sigh of satisfaction at the wellbeing properties of the hydration infuser known as Aqua Primo".

Aqua Primo Premium Water!

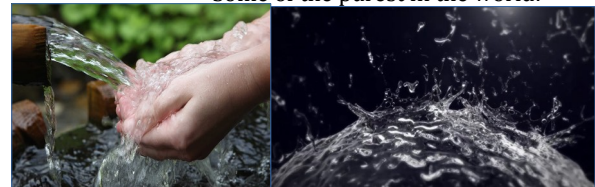

AQUA PRIMO High Alkaline water has powerful antioxidants which combat and lowers the acid condition caused by our modern diet to help maintain a healthy, disease fighting system. The natural goodness of AQUA PRIMO water comes from the region's limestone, as the water travels over the limestone it absorbs a natural mixture of minerals and electrolytes that gives our spring water the optimum alkaline pH level (7.9 pH). Low alkaline water is also available.

- Natural electrolytes and blends of minerals*
- Free of additives*
- Restores the pH balance in the body*
- Provides superior hydration and nutrition at the cellular level*

Aqua Primo natural spring water has been filtered for thousands of years through the limestone caves that connect to the underground aquifer system that feed the Famous Blue Lake at Mount Gambier in the South East of South Australia. The Blue Lake was formed over 10,000+ years ago in the vent of a volcano. When found to be deuterium-rich from ancient aquifers, according to scientists, *the water may be even older than planet earth!*

The **quality of the water** is exceptionally clear and has been filtered over many years through the underground limestone, resulting in a high alkaline water.

Australian Premium Spring Water,
Some of the purest in the world!

QUALITY that counts . . .

Aqua Primo . . .

GREATNESS SPRINGS FROM HERE!

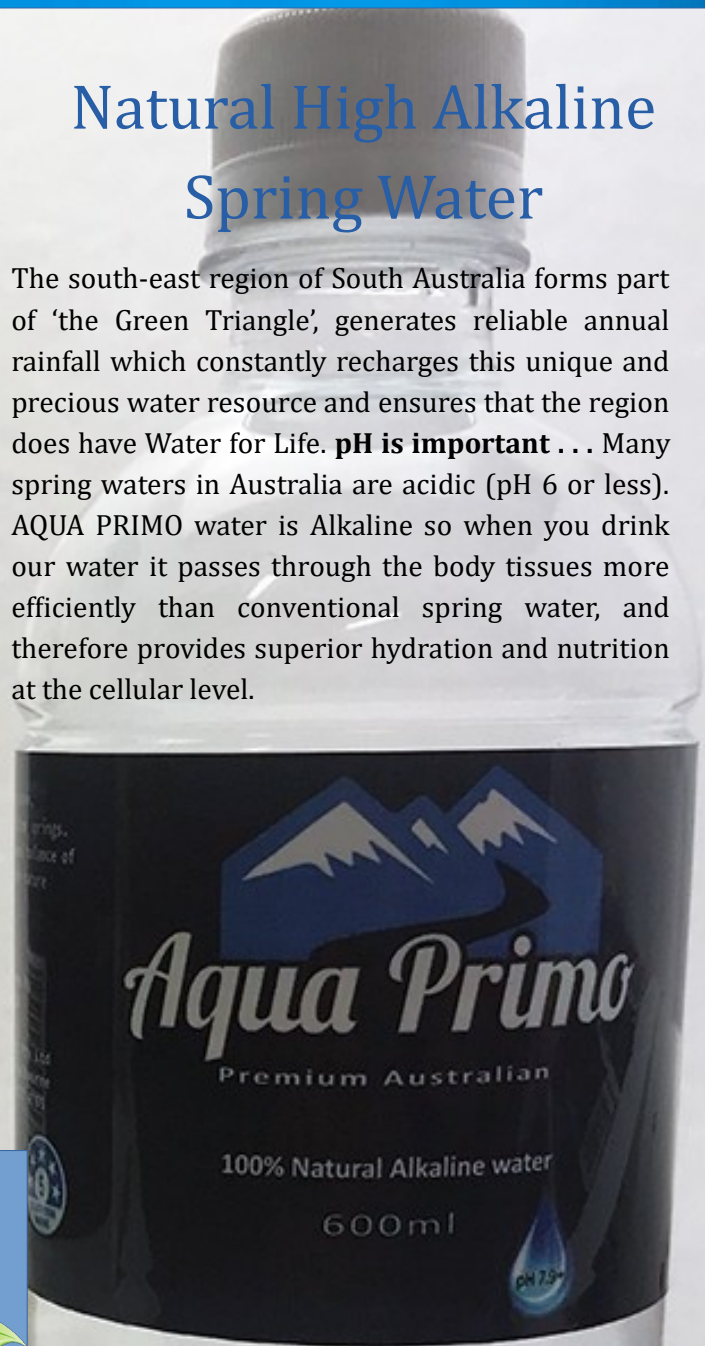

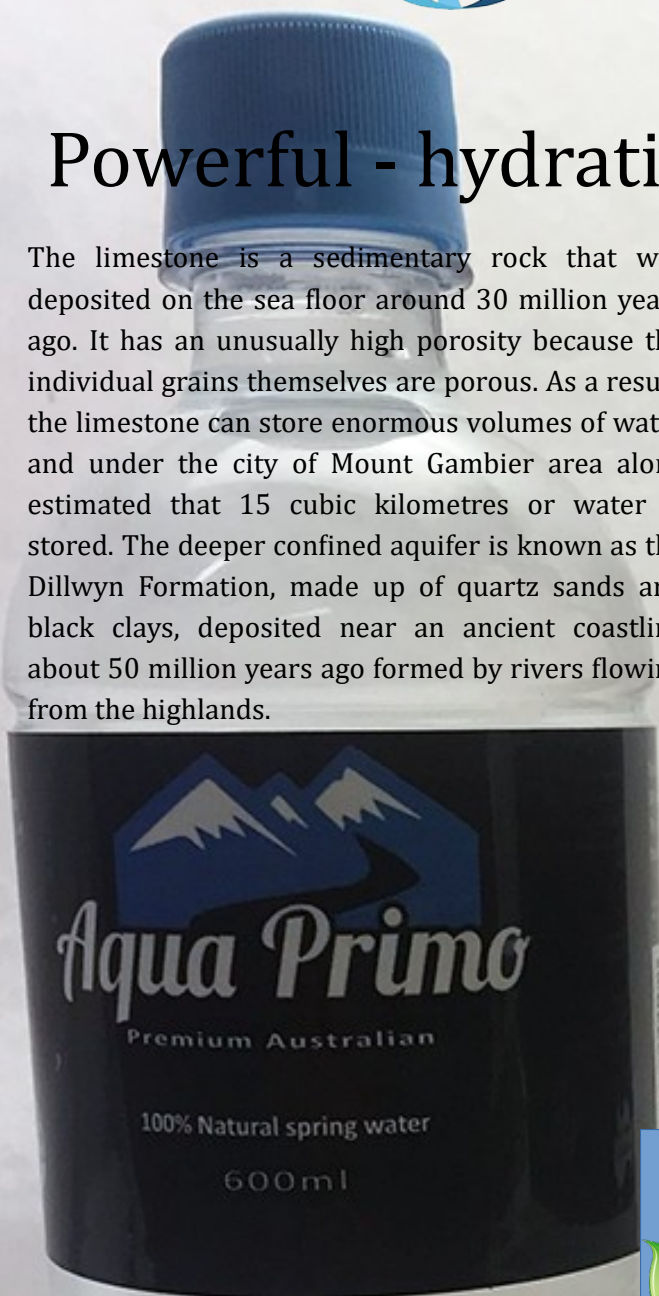

HIGH ALKALINE AND LOW
ALKALINE WATER AVAILABLE

Powerful - hydration!

The limestone is a sedimentary rock that was deposited on the sea floor around 30 million years ago. It has an unusually high porosity because the individual grains themselves are porous. As a result, the limestone can store enormous volumes of water and under the city of Mount Gambier area alone estimated that 15 cubic kilometres of water is stored. The deeper confined aquifer is known as the Dillwyn Formation, made up of quartz sands and black clays, deposited near an ancient coastline about 50 million years ago formed by rivers flowing from the highlands.

Natural High Alkaline Spring Water

The south-east region of South Australia forms part of 'the Green Triangle', generates reliable annual rainfall which constantly recharges this unique and precious water resource and ensures that the region does have Water for Life. **pH is important . . .** Many spring waters in Australia are acidic (pH 6 or less). AQUA PRIMO water is Alkaline so when you drink our water it passes through the body tissues more efficiently than conventional spring water, and therefore provides superior hydration and nutrition at the cellular level.

Healthy Natural – Alkaline Spring Water!

Aqua Primo . . .

Sample LABEL – EXPORT ONLY

Water sourced from pristine natural, healthy Australian springs, pure with a natural balance of minerals the way mother nature intended!

Bottled under license by

PRODUCT OF AUSTRALIA

5 HEALTH STAR RATING

**Aqua Primo in 600ml
(20 fl oz) Pet bottles!**

**24,000 LITER
FLEXI-TANK* INSIDE
SHIPPING CONTAINER**

*Multiple Layer LLDPE with outer layer PP woven design.
Designed to be carried in D20 ft container
The Protective Outer Cover is 8m seamless tubular
construction which would eliminate longitudinal seams.
The cover is made of high-tech aramid fibres and it has
incomparable advantage at tension and softness
performance compare against ordinary PP fibers. Between
woven of the protective layer has each 10cm gap and this
give it a high strength zonal reinforcing rib, this is a
innovative upgrade in regard to the safety. Kosher
certificate, Impact tested, Food grade, Allergen free,
irradiated, SGS approved.

Shipped in special fitted 20ft FCL shipping containers

SKU: APPSW-600 Available in 600ml X 24 pack shrink wrapped or cartons. (PH 1-6)
SKU: APPHASW-600 Available in 600ml X 24 pack shrink wrapped or cartons. (PH 7-9)
SKU: APPSW-FT-1 Also available in bulk 24,000 liter Flexi Tank for local bottling!

DISTRIBUTION

Available for worldwide distribution!
